NEW LOCATION FOR CITY OFFICES .- A change has to be made in the offices for municipal purposes, and we believe no more eligible or convenient location can be had than the rooms in Glenns' Block. The position is central, more so than any other that is proposed, and the conveniences are unsurpassed. No objection is made, rates as any other person. We can afford to be so far as we hear, to this location except by in- cursed when our labors result as favorably to the terested parties. The Messrs. Glenn are among people as this .- Ind. They are, and ever have been ready to respond liberally to all public enterprises. The city authorities cannot do better than to occupy Glenns' Block for city purposes, and by so doing, they will manifest a just appreciation of public spirited and liberal minded citizens.

INDIANAPOLIS TELEGRAMS TO THE CINCINNATI PAPERS .- We are told that the Holman Congressional Investigating Committee will thoroughly inquire respecting the authority of the telegraphic dispatches which have appeared in the Cincinnati papers during the past few months, dated Indianapolis. It is probable their paternity can be traced to the Governor, or at least, his authorization of them can be fixed. His Excellency has been blowing his own hom and violating the express commands of General Buell, of our army in Kentucky, at the same time. Thus His Excellency, according to the notions of those high in military command over him, has been giving aid and comfort to the enemy, and we hesitate not to say that he ought to take Slidell's place in Fort Warren therefor.

SKATING .- Yesterday numbers of ladies and gentlemen were enjoying themselves indulging in this pastime on the Central Canal. We particularly noticed the graceful and accomplished movement of Miss J-; the activity and alacrity of Miss L-; and the "poetry of motion" of Miss K -. Many spectators were present, and nothing more beautiful was ever seen in this vi cinity before. We will say to the ladies who wish to go a skating to-day that the little boys yesterday behaved very well, and we have every guarantee that they will act likewise in futureso our lovely triends need fear no annoyance.

MRS. HOLMAN'S EXHIBITION .- A most attractive and interesting exhibition will take place at Masonic Hall to-night. The pupils of Mrs. Hol man will give a musical effertainment to exhibit their proficiency under her instructions, to be assisted by the Holman Troupe in several of their best pieces. Mrs. Holmin is an accomplished musician and an estimable lady, and we have no doubt a full house will reward her enterprise and efforts to furnish the public with unexceptionable

"THE UNIOU SOLDIER'S HYMS."-We have received from a friend a copy of the "National Song and Melody," writted by the Hom Thomas L. Smith, of New Albany, and set to music by Augustus Pauleen. The words are full of patriotic enthusiasm and melody-one which, once heard, can not easily be forgotten. We may confidently predict that the "Union Soldier's Hymn" will be heard in every regiment of our brave volunteers. It is dedicated "To the Gallant Soldiers of the Union Armies."

There has been one city election since, which resulted in electing four Democrats to nary Republican. The cost of printing the city delinquent list has under this wholesome rebuke, been reduced to one and a half times the price of advertising for the county. Messrs. Wallace, Kirland, Glenn, Simpson and -A REMARKABLE INCIDENT .- Some time ago. a private in the 19th Indiana regiment was tried by a court-martial for deserting his post, and found guilty, the punishment for which is death, His execution was deferred for some time, and he was kept in a painful state of suspense. At last the time was fixed for his execution, and five regiments were drawn up in line to witness it

while a file of twelve men were in advance to ex-

ecute the sentence of death by shooting him. The prisoner was led forward blindfolded, and the usual words of preparation and command were given in a low, measured tone by the officer in command. During the interval between the commands, "take aim" and "fire," and before the last was given, a horseman rode rapidly up the road, waving in the air a paper, which was understood by all present to be a reprieve. Covered with dust and perspiration, the officer rode hurriedly up to the officer in command and delivered to him what really proved to be a reprieve. The shout "reprieve" fell upon the poor soldier's esr, which was already strained to the utmost in anticipation of hearing the last and final word | Or in restoring the system to perfect health, when suffering that was to usher the soul into the presence of his Creator; it was too much for him, and he fell back upon his coffin, apparently dead. The bandage was removed from his eyes, but reason had taken its flight, and he became a hopeless maniac. He was discharged from the army and sent home to his friends. His death had really never been intended, but it was deemed necessary for the good order and discipline of the army to make an pression upon not only himself but the whole brigade; for that purpose the forms of the execution were regularly gone through with, in presence of five regiments, and the reprieve arrived good time, as it was intended. It was sought by this means to solemnly impress upon the whole assemblage of soldiers the necessity of a strict observance of duty and obedience, under the penalty of an ignominious death. It was a fearful ordeal for the deserter, but it was certainly better than to have completed the tragedy by sending his soul to "that bourne from which no traveler returns."- Washington dispatches to the Philadelphia Press.

have stated to the President. Mr. Pearce said that the laws in regard to the jail were the laws which were in force at the time of the cession of the District. The bill proposes a delibery from the jail of all persons if not indieted for that already in the old law of Mary-land. He thought that the bill was especially designed for other persons. There was a power here higher than the law which released other persons. He (Pearce) had a list of seventees persons released by the Provost Marshal, which being the case, be did not know how soon Congress would be told as Cromwell told the Britisl

Parliament, "The Lord has no need of you." This bill gives certain persons their liberty. It is a sort of emancipation bill. He thought it should be modified so as to release such persons from confinement. The Union could not be re stored if the policy of the Government was known to be emancipation. If such was known to be the policy there would not be a Union man at the

Mr. Wilson thought Mr. Morrill had well taken notice of the remarks of the Senator from Vir the army. He will be appointed a Brigadier Gen. ginia (Mr. Carlisle.) Senators had been talked to by her Mason, and he feared the Senator from Virginia (Mr. Carlisle) was treading in the footsteps of his predecessor; but he (Wilson) feared the rebukes of neither. He also wanted to add his word of condemnation to the insulting con duct of Marshal Lamon. The colored people i the District had never been so oppressed for ten years as they are now. A Colonel came to him to-day with an order from a Brigadier General to send back a fugitive slave. Thank God, that name has not been passed upon by the Senate vet. 1862.

"Here let the press the people's rights maintain, Unawed by influence and unbought by gain."

THE DAILY AND WEEKLY STATE SENTINEL Are the recognized organs of the Democracy of Indiana. As it has in the past, the Sextiski will continue to advocate those principles and measures which are best calculated to advance the happiness, the prosperity and the freedom of the people from all unjust and unnecessary restraints. While cheerfully sustaining the Government as loya citizens should, the SENTINEL will vigilantly watch all encroachments upon popular rights and the true principles of constitutional liberty. The freedom of speech and the freedom of the press are necessary to preserve and secure free institutions. When these are struck down, no matter what may be the apology therefor, from that day dates the decline of American liberty. In order to form a more perfect union, establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare and secure the blessings of liberty to ourselves and posterity, the SENTINEL will fearlessly scrutinize and approve or condemn, as it believes the public good requires, all measures of the State and National Administrations. It will ever keep in view the distinction between supporting the Government and the venal acts of those who represent the Government. And we appeal for the support of all who desire to maintain a pure Constitutional Government, and continue for ourselves and our po-terity the glorious heritage of free institutions, won by the valor and framed by the wisdom and integrity of the men who pledged their lives, their fortunes and their accred honors for liberty and independence.

For the purpose of extending the circulation of the Daily and Welkily Indiana State Sentinel, its proprietors solicit every Democrat, every friend of sound and conservative National principles to aid them in that object. It is needless to urge the importance of the press as an agency

in sustaining a party organization and securing the suc-cess of its Principles, and Representative Men. The SEX-TINEL will take for its political guide the National and State Democratic Platforms and earnestly advocate the principles and policy they maintain.

The Sentines will, also, be a general newspaper. It will contain the latest Telegraph News from all parts of the world; a full and correct report of the Eastern Carria Markers and the General Markers of all the principal cities of the Union; Foreign and Domestic Intelligence; Congressional Proceedings; full Reports of the Legislative Proceedings of our own State; Interesting Tales, Literary and Religious Miscellany; Inventions and Discoveries; Decisions in the Supreme Court of the State and the Federal, Circuit and District Courts, with notices of their arguments and proceedings; the local news of the various counties of the State, which will be of general interest;

Agriculture and Science; editorial reviews and comments upon the current topics of the day, and full reports of the progress of the Civil Was from our own correspondent With a view of obtaining accurate information from every section of the State, we solicit our friends to give us such important facts from their neighborhood as they may deem worthy of transmission The Daily and Weekly STATE SENTINES are the best mediums for advertisers in the State, their circulation ex-
